This exhibition will take place at Library hall Monday evening next.

## THE SPORT WORLD.

CUBS DEFEATED BY  
ONE POINT SUNDAY

Error By Local Outfielder Gave Winning Run To Collier Hill Nine At Ho-No-Ne-Gah Park.

An error by one of the Janesville fielders, who dropped a fly in the ninth inning, gave the game to the Collier Hill Nine of Beloit. The Collier Hill Nine of Beloit, at Ho-No-Ne-Gah Park, yesterday afternoon to the latter by the score of 5 to 4. The score was tied at 4 to 4, with Beloit at bat and one man on second. The batter lifted a fly which should have been out, but the fielder muffed it and the winning run was scored.

The Cubs played in hard luck, errors being responsible for four of the failures made by Beloit. The fault lies largely with the players as both pitchers played gill-eared ball, but were not given the support they should have had. With the bases filled in the first inning and home out, Janesville failed entirely to score. Abraham twirled the first seven innings and allowed but three hits and struck out ten men. Berger, who went in for the last two frames, put up a good article, but two wild pitches made off him by Beloit, proved unfortunate. The box score:

**Game Postponed.**  
Water which covered the diamond at the Fair Grounds made it necessary to call off the game yesterday between the Janesville team, of which Walter Brown is manager, and the Madison Wisconsin-Milwaukee league nine. Word was sent to the Madison squad that the grounds were not fit for use and that news was passed among the local fans. However, if the weather permits, Janesville will play Beloit here next Sunday and a red-hot contest is promised. On the following Sunday, Janesville will play Beloit at Vail's Park. For the rest of the month the schedule arranged calls for a game here with Watertown, May 21; and the Milwaukee Walk-Over Shoe Company also on May 28. A team of Cuban players from Havana, will be here the first or second Sunday in June.

# THEATER

**Owns Booth's Bed.**  
John W. Vogel, whose initials bear his name, is the owner of one of the most private cars used in the theatrical business. It is very large and fitted up with all the comforts and conveniences that are found in the most luxurious home.

One piece of furniture of which Mr. Vogel is particularly proud, is a bed. This is of the folding style, made of solid cherry, and provided with the best and most expensive springs and mattress. This was the bed used by Edwin Booth on his last tour through the country when he and Lawrence Barrett were starring jointly. The Booth-Barrett combination, of course, had its private car, and after the death of the eminent tragedian the car was taken back to its builders and sold, the company removing most of the expensive fittings. When Mr. Vogel was having his car built he noticed this bed, and not knowing its history he made the remark that it would be a nice piece of furniture for his car. When the traveling home was delivered the ministerial owner was astonished to find the coveted bed in place and then the builders told him its history. Vogel's ministerial will appear at Myers Theatre Thursday evening, May 11.

The echo of the tremendous success scored by "Madame Sherry" in Chicago and New York has undoubtedly resounded in this city, judging from the interest displayed in the engagement of this French musical comedy at the Myers theatre, May 2.

When the box office opened for the

sale of seats for this attraction there was a long line waiting to purchase tickets, two-thirds of the house being sold already, and from all accounts those fortunate enough to secure seats will witness one of the daintiest and most unique musical comedy creations of a generation. Adapted by Otto Hauerbach from a French original which won success in Paris, Berlin and London, with its positively enchanting melodies by Karl Hosenau, and produced by Woods, Frazer and Lederer in a style that equals perfection, "Madame Sherry" is one of those rare theatrical gems that are offered once in a very long while. Coming here at the very height of its metropolitan popularity further adds to its attractiveness.

## FAREWELL PARTY AT STATE SCHOOL FOR BLIND

(SPECIAL TO THE GAZETTE.)

Rock, May 1.—A farewell party in honor of Miss Laura Blotoff of room 75 at the Wisconsin State School for the Blind was held Thursday evening. A very pleasant time was spent with music and games and tempting refreshments were served at ten o'clock.

Those present were: Mrs. Anna Kirby, Mrs. Anderson, Mrs. E. H. Hall, Mrs. McKinnon, and the Misses Minnie and Anna Frank, Matilda and Louis Krieger, Nellie Helmer, Mary O'Rourke, Margaret Gilmartin, Anna Christopherson, Laura Blotoff, Mary Murphy, Hilda Giese, Catherine Tom-

pitch, Elizabeth Burkess and Emma Dunsink.

### Pleasant.

### BROADHEAD.

Broadhead, May 1.—Meadames Ad. Fleck, Jr., and W. E. Fleck and Miss Mabel Fleck spent the day in Janesville Saturday.  
Rev. George L. Hunt went to Evansville on Saturday.  
Mrs. W. L. Gehr went to Fennimore on Saturday to make a short visit with Rev. and Mrs. J. T. Lewis.  
Carl Marty of Chicago, was here on a business trip Saturday.  
Miss Josephine Fitzgerald of Janesville, came up from that city on Saturday, to visit a short time with Broadhead friends.  
Mr. and Mrs. Emmett Grenawalt of Orfordville, spent Sunday at

the home of the lady's parents, Mr. and Mrs. P. F. Nolly.

Momer Potter of Evansville, and Earl Potter of Orfordville, came to Broadhead Saturday and were guests of Mrs. Kate Doolittle. They returned the same day while the former remained until Monday.

Mrs. W. A. Sprague and son, Burr, were passengers to Rockford for a few days stay.

Miss Helen Popple spent Saturday in Janesville.

Mr. and Mrs. W. Mann of Woodstock, Illinois, were here on Saturday, the guests of friends.

The Anti-tuberculosis meeting held in Broughton's Opera House last

evening was well attended and the address by Harvey Dea Brown of Millwaukee, was very interesting.

Mrs. S. W. Doolittle and daughter, Dora, went to Stoughton today, where they are guests of Mr. and Mrs. C. E. Doolittle and family.

Wilbur Gilbert was up from Detroit on Sunday.

## Regal Shoes at Cost Plus 5 per Cent.

*An Earthquake for the Trade, but a Benefit to the Public*

**Regal Prices Are Now \$3.35 to \$5.85**

NOBODY OUTSIDE the shoe trade can realize what a jolt that trade received when the Regal Shoe Company announced its new pricing-policy.

"HENCEFORTH," said the Regal Shoe Co., "all the shoes we make will be priced at COST OF MANUFACTURE AND SELLING, PLUS FIVE PER CENT. COMMISSION, no matter whether that price figures out in odd or even money, and without regard to the 50c jumps between prices, heretofore arbitrarily fixed in the shoe business."

IT WAS NOT the five per cent. that gave the jolt. The Regal Shoe Co. has always done business on a five per cent. profit and every manufacturer knew it. It was the abandonment of the "even price" that caused the stir.

THAT "EVEN-PRICE" policy has been the darling superstition of the shoe trade for twenty years or more. Standard shoes had been sold for so long at \$3.50, \$4.00, \$4.50, \$5.00 and so on, that dealers thought no other prices were possible.

"BARGAIN" SHOES—nameless products shoveled out by shoe "departments"—might be sold at odd prices. But standard makes—oh, never!

IT WAS ARGUED seriously by expert shoe-salesmen that men and women who wanted shoes of name and character would rather pay even prices. That is, they argued that a man would rather pay \$5.00 than \$4.85, whether or not he got anything worth having for that extra 15c.

AND SO, WHEN a designer produced a new shoe that could be sold for profit and all at \$4.85, the manufacturers were up against an embarrassing situation.

THEY COULD DO any one of three things—and some one of these three things they all did:

THEY COULD LET that \$4.85 shoe stand as it was and ask \$5.00 for it, getting an extra 15c profit, if Regal competition would allow it,—or

THEY COULD ADD 15c worth of unnecessary expense to the shoe, bringing its price up to \$5.00

OR, THEY COULD SKIN 35c worth OUT of the shoe, bringing its price down to the next even figure—\$4.50, but spoiling the shoe's quality-balance.

BUT AS FOR DOING the obvious and proper thing—selling that \$4.85 shoe for \$4.85—why that was not to be thought of!

SEEMS RIDICULOUS, doesn't it? But all superstitions seem ridiculous after you have exploded them. And the Regal has exploded this one.

HEREAFTER, Regal Shoes will be built just as the Regal style-builders plan them. They know their business, and they know their public.

IF THEY SAY "This shoe is right as it stands—the best shoe that can be devised and built for its particular want and purpose"—why that shoe is going to the public just as it is, unaltered by a foolish custom.

THE DESIGNERS will not be required to add anything unnecessary to it, nor to take anything out of it, to bring its price up to or down to any set figure.

THE MANUFACTURING COST of that shoe will be figured carefully; five per cent. will be added and a further allowance covering the actual cost of selling that shoe to the customer, and the resulting sum will be the price of that particular shoe, whether it is \$3.35, or \$3.50, or \$4.25, or whatever it is.

THE PRICE WILL BE STAMPED ON THE SHOE AT THE FACTORY and certified public accountants will verify the prices and also verify the fact that only five per cent. commission is added.

YOU GAIN MORE than the dimes you save by the odd prices. You gain also by better balanced quality and by the fact that you pay only for what you want.

REGAL Style-Builders now have a free hand. They simply get out the BEST SHOE THAT THEY CAN DEVISE for a certain purpose at about a certain price. You pay for exactly what you get, plus the fair 5 per cent. You are taxed nothing for useless additions.

## Great Carpet Section is Now in Readiness

That this section excels in values in southern Wisconsin is a conceded fact. This season's preparations have been enormous. Here quality is the first consideration. Not how cheap but how good is the demand we make of the manufacturers. The guarantee of this store goes with every rug, every yard of carpet, drapery or curtain goods, and to guarantee perfect satisfaction calls for the most careful discrimination on the part of our buyers in the selection of the various lines. We call your special attention to the newness of the patterns and styles throughout this entire section.

## Here are Room Size Rugs of Quality

Our theme today is Room-size Rugs of high grades—floor coverings which will give the very best service and please most by their artistic and handsome patterns. We handle the celebrated Hardwick McGee Rugs, the best made because only the finest Persian wools are used in their manufacture and the colors are tested by experts before the Rugs leave the factory.

## Art Rugs That are Full of Service

Beauty and service are equally the first essentials of a rug. If it is not handsome, it doesn't deserve a place in the home. If it will not give good service, it is equally undesirable.

Every rug (almost) that is made in America combines these two features to a certain degree. But none combines them so well as the Hardwick McGee. That statement is worth repeating and emphasizing.

## Hardwick McGee are the Finest Rugs Made in America

They are made from worsted yarns of special quality. They are woven so closely they are wondrously like the hand-made Persian Rugs. In color combination, they are unique; there seems to be no design so intricate but that it is easily worked out in a Hardwick McGee Rug. And over each Rug and in each Rug is a marvelous finish; a something which makes it shine with the subdued luster of silk plush. Design always harmonizes with color, both are made doubly attractive by this finish. But these Rugs can only be known by seeing—and there is a complete assembly here for your seeing now.

The same designs are to be had; and those designs are copies of the famous Persian designs of Tabriz, Saruk, Kermanshah, Schma, Saraband, Iran and Soumk as well as of patterns made famous during the first empire of France.

### Hardwick Wilton Rugs

This Rug is extra heavy and as thick as an Oriental, same patterns, and is made in all carpet sizes, 9 ft. x 12 ft., at \$42.50.

BUNGAR WILTON RUGS considered one of the best wearing rug in the market and it is not excelled by any other rug excepting the Hardwick French Wilton; sold in all sizes at popular prices. 9x12 priced \$37.00.

### French Wilton Rugs

Made of fine Australian wool, in small all-over pattern, at least 25 new designs to blend with any decoration, 9x12 ft., at \$50.00.

Many other Rugs in carpet sizes are spread out in Carpet Dept. There is no other selection offers such good values. We are exclusive agents for these rugs.

## THE INSURGENTS.

In the letter of a Washington correspondent for a leading Chicago paper the statement is made that the insurgent United States senators are really losing ground in the senate, and then goes on to explain why. In summing up the situation the article names the following as the former original thirteen insurgents and intimates that perhaps the number thirteen has something to do with the situation.

"Moses E. Clapp of Minnesota.

William E. Borah of Idaho.

Jonathan Bourne, Jr., of Oregon.

Robert M. La Follette of Wisconsin.

Albert H. Cummins of Iowa.

Morris Brown of Nebraska.

Joseph L. Dillworth of Kansas.

One L. Crawford of South Dakota.

Joseph M. Dixon of Montana.

A. J. Gronna of North Dakota.

Wm. D. Waldorf of Washington.

John D. Worke of California.

W. H. Kanyon of Iowa.

"Thanks to their chautauquian clamor and their general blarney advertisement, the nation at large had obtained the idea that these insurgents were about the most powerful thing in Washington politics and still growing.

"But a survey of their present condition shows that they are far weaker now than they were in the Aldrich-Payne tariff bill fight two years ago. And from present accounts their influence on the legislation of the present session will be even less than their influence in that session. It appears certain that they will not be able to come anywhere near last year's record, when they really succeeded in getting some of their ideas written into the amendments to the Interstate Commerce law.

"Much of this decrease in insurgent importance is due to the personal ambitions of Senator La Follette, who has been trying to use the insurgent movement to further his presidential ambitions. This has brought strife and jealousy into the movement and has helped neither the insurgent nor the La Follette boom."

Meanwhile the Wisconsin legislature is falling into the trap laid for it and seeks to start new investigations. Always something to keep the eyes of the people. Be in on the chautauquian platform or on the stump. There is no opportunity lost to start something.

## THE FOURTH CELEBRATION.

On July Fourth, next, Janesville is to celebrate the nation's birthday in a truly martial manner. Arrangements are now under way for the entertainment of nearly a thousand of the state militia, which will include several of the leading military men of the state. To accomplish this the committee having charge of the affair will be forced to ask for liberal subscriptions from the citizens generally. The fact that the celebration is to be held under the auspices of Harry L. Girard camp of the United Spanish War Veterans, a joint committee from that organization and the Industrial and Commercial club having in charge, means that there will be a large number of persons in the city from Monday until Wednesday. In

stead of the usual one day affair it will practically last three. Mr. John Gohlner is the secretary and treasurer of the committee of which Carl Buchholz is chairman. Work on raising the funds needed will be started at once and as the plans for the celebration develop it will be seen that Janesville is in for one of the biggest celebrations it has ever had.

## FIRST COUNCIL MEETING.

This evening the newly elected common council held their first regular session. Much interest is displayed in the gathering owing to the fact that many matters of importance will doubtless come up for consideration. Principal among these is the question of the "open and shut door." This is a matter of vital importance and one which will be decided by the council only by passage of either a stringent ordinance that will meet the requirements of an ordinance that will give the retail liquor men leeway to keep their front doors open until six on Sunday evenings. Many aldermen have expressed themselves as radically opposed to the continuance of the present methods and something is expected to develop at this their first formal gathering. The Gazette stands for a closed door, but rather than see present conditions continue would approve of an ordinance that would compel all retail liquor dealers to throw open their curtains and screens after eleven at night and Sunday at six. This would tend to do away with the "side door route" on Sundays and bring about a better result generally. The question of changing the present methods of street assessment is also due for consideration, as is the width of the Racine street bridge and the purchase of the land in the Fourth ward needed for the approach from the west side of the river. An ordinance for wagon tires is also due for discussion and the council will find that it has its hands full deciding tangled points of law and order at this time.

## THE FAIR GROUNDS.

The purchase of the old Rock County fair grounds by the proposed corporation of business men who intend to preserve the park as a recreation and amusement park is a matter which is of interest to every citizen who has the least interest in Janesville at heart. The men who have started out in this undertaking have met with success thus far, but more money is needed to assure the success of the undertaking. Liberal donations for the purpose of purchase of the stock is desired and it is to be hoped the plan will be successful. The ground itself is worth more than the purchase price it cut up into city lots and will increase in value. There will be a steady source of revenue from the rentals for various purposes and it is certain the city as a whole will be benefited.

If the city health officer would issue a strict set of rules relative to sanitation for the city it would be appreciated. Some people fail to understand the laws relative to dumping garbage in alleys and vacant lots and a reminder from the health officer might not come amiss.

No one can tell what that legislation at Madison is going to do next. The crazier the measure the more apt it is to pass. However, there is a good time in store for the lawyers who are to untangle the legal complications that are sure to arise.

By and by some smart yellow journalist will discover that George Washington was not an American citizen when he commanded the armies of the revolutionary war. Just think of such a scandal as that?

Janesville is fast becoming a prospective convention city. The Ancient Order of Liberatorians started the ball rolling and the next big gathering will be the veterans of the Spanish war in July.

Tonight's council meeting will be watched with interest. It will, perhaps, give a lineup on what may be expected in legislation for the next two years.

The Industrial and Commercial club has the best interests of the city at heart and should be given the support it deserves.

Janesville is ready to have someone build that Madison Interurban and the citizens do not care how soon they start at work either.

Cold weather is not conducive to gardening, but wait until the warm days do come and then see things take a start.

THE POET PHILOSOPHER

(Copyright, 1909, by George Matthews Adams.)

By WALT MASON.

I am old and gray and spavined and I look like twenty cents, but I have one consolation now.

SOME CONSOLATION

That life is in its fall; I can sit upon a boulder, with my back against the fence, and forget my tribulations when I see a game of ball.

Oh, I love to see old fellows in the sun, on the bleachers, yellow fifty-seven ways! For the time they have forgotten all about old age's grief, as they shake appreciation of the home team's every play. I am old and stiff and spavined, and my rheumatics bother much, and the undertaker eyes me in proprietary style, but I'd go to see the ball game if I had to use a crutch, and I'll yell like ten hennas as I wave my ancient flag. You may say I'm full of cobwebs, that my black is out of plumb, when I make the end confession that an old man me annoys, if he moons around his dooryard, looking

woebegone and glum, when he might be at the ball game, raking thunder with the boys. If you are so bothered, ancient that you do not feel a thrill when the home team's winning laurels and a gorgeous lot of fame, you should rent a house to haul you to the bonfire on the hill; for the mighty foolish living when you're weary of the game.

## OUT AGAIN AND IN AGAIN FOR LARRY

Deloit Man, Habitual Drunkard, Wearing Out Hinges at County Jail, Coming Out and Going Back In.

Larry Sullivan of Deloit, who completed a six months' sentence at the county farm for habitual drunkenness last Tuesday, and who has served two terms in state's prison for the same offense, was one of the prisoners brought before Judge Fildes in municipal court this morning on the charge of drunkenness. Sullivan was arrested immediately after he left the county farm, and on Saturday morning left the county jail after serving a sentence for the old offense there. Saturday afternoon he was intoxicated again and was arrested. "I mean to do better," said Sullivan, when the judge chided him for his habits. Sentence of five days straight and a fine of \$2 and costs, \$3, or three additional days in jail was passed.

The temptation of intoxicating beverages was too strong for William Heeslan, a local man, while in Madison yesterday, and after arriving here he was arrested and placed in jail. He pleaded guilty to the drunkenness charge and arranged to pay a fine of \$2 and costs of \$1.

Two out of town men were on the police roster this morning. Walter Shadel of Edgerton paid a fine of \$2 and costs of \$3 and Lawrence Ward of Orfordville secured the money for a like fine from friends in the city.

## COMMON SENSE CURE FOR RHEUMATISM.

Rheumatism has for ages been a puzzle to the doctors. Some claim it to be an infection, a germ disease. Others claim that the cause is uric acid, a kidney disease. It is said that uric acid is carried by the blood into the small arteries of the joints and skin where it crystallizes and it is the small, sharp crystals that cause the body pain with every motion of the body by cutting into the flesh and nerves. Whatever the cause, the best relief known is an Alkaline Elixer of the Sallcyates. The chemical nature of the Sallcyates is to form soluble compounds with the urates. In this way these crystals are dissolved, taken up by the blood and taken out of the body by the kidneys.

This rheumatic elixer is taken in teaspoonful doses in hot water before meals. The cure is often in a day or two, yet the remedy should be taken for some time to thoroughly neutralize the blood and prevent a recurrence of the trouble. This elimination of the doctors would say, that is the kidneys and the bowels, should be kept active. Rheumatic Elixer is compounded by Mr. Fennig, our Graduate Pharmacist and Chemist, who would be pleased to give you any other information you wish. Sold at 50c. **WILL CELEBRATE IN MARTIAL WAY ON JULY FOURTH**

PLANS PERFECTED FOR PARADE, SHAM BATTLE AND BIG DEMONSTRATION ON NATION'S BIRTHDAY.

**MILITIA IS EXPECTED**

What Promise To Be Biggest Celebration Ever Held Here is Being Arranged For.

Janesville will celebrate July Fourth in a manner greater than has ever been undertaken. At the meeting of the joint committee of the Industrial and Commercial Club and the Harry L. Gifford camp of the United Spanish War Veterans, tentative plans were made to carry on the big undertaking.

It was decided that the celebration this year be purely martial. That military companies from Beloit, Monroe, Ft. Atkinson, Whitewater, Burlington, Madison, Racine and Milwaukee be invited to come to Janesville to take part in the big parade Tuesday, July Fourth, in the morning and the sham battle in the afternoon.

It will mean a parade on Monday, July Third, until Wednesday, July Fifth, Janesville will be invaded with an army of soldiers that will give the city the aspect of a genuine war camp. Aside from these visitors it is expected that fully thirty thousand people will be here for the celebration on the Fourth alone, and half that number will arrive Monday and remain over until Wednesday.

July third, fourth and fifth, are the dates set for the holding of the encampment of the United Spanish War Veterans, which alone means that fully a thousand delegates and visitors will be in the city. These with the added interest of the arrival of the troops, their going into regular camps in different parts of the city and the parade and sham battle on Tuesday will make it three of the biggest days that Janesville has seen in many years.

At the session of the joint committee, Carl Huebholz, was named as chairman of the joint committee, John Goller, secretary and treasurer and Albert Nott as assistant secretary. The committee assignments made as follows: Finance, John Goller; Military, Edward Patter; Location and grounds, George McKoy; Concessions, Albert Nott; Quartermaster, George Kueck; Transportation and amusements, Carl Huebholz; Advertising, David Atwood. Each committee chairman will appoint his assistants who will be announced later.

It was roughly estimated that fully four thousand dollars and perhaps more will be needed to assure the success of the project and the idea of issuing bonds redeemable in part from the treasury of the committee after all bills are paid, was suggested as a means of raising the funds necessary. This matter was left in Mr. Goller's hands to arrange for.

The common council will also be asked to give the rights of the streets to the joint committee for the three days at their session this evening and several bills and camping grounds for the soldiers will be secured at once. While the Fourth is still two months away the bringing to the city of a small army of soldiers and arranging to care for them and feed them while here will take considerable time.

The revenue which the committee expect to realize to add to their treasury and make the bonds redeemable will accrue from the sale of the privileges, the two big military balls to be held, the program and the sham battle. At the celebration held in Fond du Lac two years ago, a thousand dollars more than the net expenditures was secured and it is possible to do as well here.

The committee plan to make Monday a banner day of the week and there will be a parade of the delegates and members of the visiting camps of the veterans, band concerts on the streets and the Eagle drill team have offered their services to give the bandstand a labor drill on the street. There will also be a semi military ball in the evening and other entertainments for the visitors.

Tuesday will be the big day and there will be plenty of excitement. It has been suggested that the sham battle start down town with brick bats and then the final assault come at the grounds where the big battle takes place. In the evening will come the military ball and the electric display on the streets and more band concerts by some of the best bands in southern Wisconsin.

Taking it all in all it promises to be a big time with not a single dull moment from Monday morning until Wednesday night. General Charles King of Milwaukee will be invited to be the guest of the committee and take charge of the military end of the affair and he will doubtless bring with him many of his own personal staff.

The Light Horse Squadron and Battery A of Milwaukee, will be invited to attend and would doubtless march overland. A detachment of regular troops from Ft. Sheridan, has been promised if they return from the army maneuvers at the Texas frontier in time.

Mr. Goller and his committee will be the first to get at work and they will begin their campaign of the city at once to raise the funds needed so that the remainder of the children can make their estimates on the amount of money to be expended by them.

**BRIEF LOCAL NEWS.**

Civil Cases: The civil case of R. O. Park against A. S. Flagg of Edgerton, which has been in litigation for about two years, was again adjourned today. The action brought by the city of Janesville against Charles Detrener, foreman of the construction gang of the Wisconsin Telephone company, was today dismissed on motion of City Attorney H. L. Maxfield. Detrener was charged with tampering with and moving wires of the fire alarm system without obtaining the consent of Chief of the Fire Department H. C. Klein.

Myrtle Workers. State Manager Geo. W. Howe, accompanied by Mrs. Howe, will visit our lodge Tuesday evening, May 2. There will be a social good time, and all members are requested to turn out and attend.

**FIRST SESSION OF COUNCIL TONIGHT**

Many Matters of Importance Will Be Taken Up at the Initial Meeting.

Principal among the matters of business to be discussed at the first regular meeting of the new common council, will be an ordinance which, it is understood, one of the aldermen has prepared regarding the wagons used by teamsters in the city for hauling gravel which allow the gravel to fall out on the streets of the city. The material, it is said, which falls from the conveyances, is ground into the pavements and eventually ruins those that are in good condition. Carelessness of the drivers in loading their wagons, it is declared, is purely responsible for this, but the greater share of blame is laid on the city ordinance. The proposed ordinance, it is said, will require that all wagons used for such purposes be of the style similar to those used by the city in its work on the streets for hauling away waste materials. This has a closed box which prevents the loose material from dropping on the streets.

Other matters to come before the meeting are the approval of the bonds of Street Commissioner Dan Willard, City Engineer C. V. Kureh, Health Officer Dr. M. A. Cunningham, Walter L. Taylor, appointed a member of the fire and police commission, and the assessors of each of the wards. The board of education report for the month of April, the municipal police and city marshal's reports will also be presented. Some action with regard to the purchase of new street signs will be taken, it is said.

**INAUGURATED NEW SOCIETY SUNDAY**

Daughters of Isabelle, Auxiliary of K. of C., Held Initiation and Installed New Officers.

Initiation ceremonies followed by a sumptuous banquet marked the inauguration of the new society of the Daughters of Isabelle, an auxiliary of the Knights of Columbus, in this city yesterday. The initiation took place in the lodge room of the Knights of Columbus in the Jackson block and thirty-one new members were taken in. The officers of the society were also installed. The degree work was performed by four young ladies from Chicago, from St. Cyr's court of that city, the Misses Ella Croke, Jean Montgomery, Frances Leary and Belle V. Casey.

The banquet was served at the Grand hotel, about forty being seated at the tables. The scene in the dining room was a most beautiful one. The room was lighted with candles in handsome candelabra and the tables were decorated with carnations, ferns, and greens. An orchestra furnished music during the evening.

The officers installed yesterday are: Grand Regent—Catherine Crowley; Vice Regent—Luther Wilbur; Financial Secy.—Rose Gagan; Treasurer—Alice Morley; Inner Guard—Mayme Hannigan; Proprietor—Nellie Quirk; Monitor—Elizabeth Devins; Lecturer—Mrs. Nellie Hemming; Trustees—Moses Ann Boran, Gertrude Haggart

## WEALTH TRACES SEEN IN HOME OF MYSTERY

Strange Wall Street Woman Is Taken  
to Insane Asylum—May Be  
Very Wealthy.

New York, May 1.—Agents of the state lunacy commission in searching the dilapidated hut at No. 452 Prospect avenue, Brooklyn, found strown about the floor stocks, bonds and mortgages worth nearly \$1,000,000.

The wealth belongs to Miss James Perkins Williams, "the woman enigma of Wall street," who, since 1875, has been a daring but wise speculator in stocks. Miss Williams, now in her seventh-fifth year, has been removed to the Long Island state hospital for the insane for observation. Her actions, always eccentric, became so strange recently that friends caused her removal to the institution.

A special agent of the lunacy commission is on guard at the rickety shanty, where the woman had lived for twenty years in the depths of squalor. Rubbish and old bottles heaped the floors and she cooked what little she ate on a stove that was almost falling to pieces.

Yet every day she went to Wall street and visited brokers, banks and business houses. Her bankers are Henry Glows & Co.

In the shanty were found great hoaps of letters, most of which had never been opened. Many of these contained evidences of her large investments.

It seems she did not like to collect dividends or interest, for some of the letters urged her to claim accumulations of money which had been running for years.

It is believed that besides the fortune represented by the papers in her home Miss Williams had as much again deposited in banking institutions.

## ARREST IN ARMOUR CASE NEAR.

Widow of Packer May Withdraw  
Clemency Toward Her Companion.

Kansas City, Mo., May 1.—It is reported that the clemency which Mrs. S. B. Armour extended to the young woman who took \$150,000 worth of bonds from Mrs. Armour's safety deposit box will be withdrawn and that the young woman will be arrested.

This report comes as the result of disclosures that the young woman has failed to return \$50,000 worth of bonds. It also became known that the brother of the young woman, who was supposed to be a wealthy South American, and was expected to make good whatever bonds could not be recovered, in reality is financially unable to do so.

The woman, who was a close companion of Mrs. Armour and a member of her household, will contest in the courts against the recovery of the missing bonds. She has engaged counsel to look after her end of the legal battle.

## EARL GREY IS SUMMONED HOME

Critical Condition of Reciprocity Situation Results in Sudden Recall.

Winnipeg, Man., May 1.—The critical situation at Ottawa has resulted in the sudden recall of Earl Grey to the capital from Winnipeg.

The governor general has canceled all his engagements for next week and left with his suite for Ottawa.

The determination of the opposition to fight reciprocity with the United States all summer, if necessary, as outlined by Leader Borden, thus preventing Sir Wilfrid Laurier from attending the imperial conference and coronation, has caused a crisis in political circles.

## MARCUS DALY'S DAUGHTER DIES

Fast Run Across Continent Proves of No Avail.

New York, May 1.—Mrs. Margaret Daly Brown, daughter of the late Marcus Daly and wife of H. C. Brown, a banker, died at her mother's home on Fifth avenue.

Mrs. Brown's death came within a few hours after her arrival here on a special car which brought her on a fast run from Montana.

Mrs. Brown was taken ill in Annapolis and the high altitude, it was said, imposed a strain on her heart.

## GIBBONS IS AGAINST REVISION.

Commandments Must Not Be Changed, Says Cardinal.

Baltimore, Md., May 1.—Cardinal Gibbons expressed his disapproval of the proposal of Episcopal ministers to shorten the Ten Commandments. The cardinal's displeasure was expressed while addressing confederates in the immaculate Conception "Catholic" church. The cardinal said: "What a horrible thing to undertake to lay hands on God's commandments. We must not dare to change one iota of God's word."

## JAP CABINET NOT TO RESIGN.

Premier Katsura Denies Changes in Ministry Are Contemplated.

Tokyo, May 1.—Count Katsura, the premier, in an interview authorized the statement that no change in the cabinet is contemplated. Various rumors have been current here and widely published to the effect that the resignation of the Katsura cabinet was imminent. This caused an unsettled condition and has proved annoying to the government.

Police Seize Eighteen Camorists.  
Rome, May 1.—Camorists have arrested 18 members of the Camorra at Poggioreale, 21 miles from Naples. The reputed chief, Francesco, is included in the number.

Trinidad's Rubber Industry.  
Trinidad expects to have a million rubber trees in a few years.

## WOMAN SAVES TUNNEL MEASURE

Colorado Legislator Casts Vote Necessary to Pass Moffat Bill.

Denver, Colo., May 1.—Despite protests, which were ignored by Speaker McLachlan, the house by a vote of 33 to 30, concurred in the senate amendments to the Moffat tunnel bill, and then passed the measure by a vote of 35 to 27.

The bill, which provides for construction by the state of a tunnel through the main range of the Rocky mountains, which is to be leased to the Denver, Northwestern & Pacific railroad (Moffat road), was amended in the senate so that the project must be submitted to a referendum vote at the next regular election two years hence.

The scene was one of the wildest in a Colorado legislature for years and great bitterness was shown by both sides.

The vote of Mrs. Kerwin, a woman member from Denver, gave the measure the necessary 33 votes.

## CHEMIST DOOMS OWN DISCOVERY

Dr. Remsen Head of Board That Condemns Saccharin for Food.

Baltimore, Md., May 1.—It has fallen to the lot of Dr. Ira Remsen, president of John Hopkins university, to declare deleterious to health and therefore useless in its most promising commercial form the chemical saccharin, of which he was one of the discoverers and which is closely associated with his name.

The United States secretary of agriculture has announced that saccharin, which has been widely used by manufacturers as an economical substitute for sugar, may not be used in food-stuffs after July 1. The ruling is based upon the report of a board of experts, of which Doctor Remsen is chairman.

This chemical, which was extracted from coal by Doctor Remsen and Doctor Fahlberg, is 300 times as sweet as sugar.

## OHIO SOLONS IN BRIDERY NET

Detectives Say They Have Trapped Five Members of Legislature.

Columbus, O., May 1.—Three detectives arrested as lobbyists in the general assembly declared that they had successfully manipulated a trap for five members of the legislature suspected of participating in bribery. They accused one representative, four senators and a senate attaché.

The detectives, who were employed by the Manufacturers' association, admit they offered and paid bribes so as to gain evidence against assemblymen.

Their arrests were made on warrants sworn to by Dr. George B. Nye, representative from Pike county, who said they paid him money to defeat the women's nine hour bill and the mutual insurance bill.

## How to Float a Corporation.

To an organized clique of capitalists add a given quantity of elaborately engraved bonds, certificates of stock, and incorporation papers, sufficiently diluted with water, and supplement with a brisk dash of clever advertising. Disseminate and dissolve advertising thoroughly, and sift in a popular quantity of unshorn small investors. Add more water, stir vigorously, and strain through the fine sieve of manipulation and suspension of dividends to eliminate the now undesirable, panic-stricken small investors. Set them aside to cool, add to the residue of capitalists, water, and what remains of legitimate stock, add monopoly and favorable legislation, flavor with delusion, and the corporation is ready to serve. Tuck.

## Garden for Every Prisoner.

Thirty long term prisoners in the Kansas City (Kan.) workhouse are to be given garden lots this spring in a four acre tract adjoining the workhouse. They will be allowed to work in the gardens after working a certain number of hours each day on the stone pile. The prisoners will be allowed to choose the vegetables, and the products will be served in the prisoners' dining room. Gardening will not be compulsory, but the prisoners who do not work in their gardens will spend that time breaking stone.

## Why Golden Crown Beer Is Good For You

The Refreshing, Delicious Qualities of Golden Crown, That Good Bottled Beer, Are But a Part of Its Merit. Its exceptional Food and Tonic Properties Are What Make Golden Crown the Choice of the Most Fastidious Beer Drinkers

In the brewing of our products we use only the very choicest materials. We purchase the finest barley, malt and hops that money can buy and skill can select. The various processes for brewing and fermenting are all conducted and supervised in an environment of absolute cleanliness by expert brewmasters of ability and integrity. The water is artesian water from a well bored deep through the solid rock. The water springs up clear and sparkling, bubbling with health-giving qualities and is peculiarly adapted to the making of a rich and mellow beer. Every known device, method and mechanical improvement in the art of brewing that tends to cleanliness, purity and perfection is used by us.

## We Spare Neither Time Nor Expense To Attain the Highest That Is To Be Attained.

Then we have large storage capacity whereby we are enabled with ease and convenience to "store" and "age" or "lager" our beer the required length of time.

This makes it always mature and healthful and fit for the most delicate stomach.

The storage of beer is of great importance and with our large store house which is equipped with modern refrigerating system we are enabled to maintain a suitable and proper temperature for the beer during all the seasons.

Thus the ingredients, the skill, the climate, the water, and the aging all contribute to produce that marvelous fragrance and mellow flavor so generally desired and for which Golden Crown Beer is known.

When barley beer is made from the best material (by men who are masters of the art of brewing) it contains both dextrine and albumen which are foods; also phosphates, which build up bone, brain and tissue.

The extract of the hop blossom acts as a splendid digestive and quiets the nerves. Furthermore the small amount of alcohol in really good beer is a wholesome, natural tonic for the entire system while the effervescing carbonic acid gas makes the beverage refreshing and gratifying.

For these reasons we claim that "Golden Crown" is a beer of commanding superiority—that it is a beverage, a tonic, and restorer, as well as a nourishing, natural, healthful food of substantial value.

It quenches the thirst, charms the palate, enriches the blood and builds body, bone and brain.

## The Evening Chit-Chat

By RUTH CAMERON.

**D**ID YOU know that you might have dyspepsia, sore throat, nervous prostration, asthma, epilepsy or catarrh—courage, comrade, this is not going to be a patent medicine advertisement—and yet have none of these things?

For your trouble may be all in your eye—literally, not slantingly. Such, at least, is the statement recently made by Professor Algonia Tinsin of Columbia University, who has been studying for years upon the subject of the relation of the eye to other organs and the dangers of improperly fitted eye glasses.

The professor says that falsely fitted glasses may be the cause of the above widely varying diseases and a long list of others quite too numerous to mention. He says that he saw persons who said that they had been cured of asthma, fever, catarrh, epilepsy and dyspepsia; he says that he himself was cured of a bad stomach trouble; all by obtaining properly fitted glasses.

He also says a good many more things along the same line, but I guess I have quoted enough to point the moral—which is, of course, that you cannot be too careful in finding out whether your eyes are working under a strain, which may be affecting your whole system, and if they are, in making sure that they are properly fitted with glasses that will relieve instead of intensifying this terrible strain.

That dizziness, that headache, that stomach trouble which your family doctor cannot seem to reach—who knows but that two little bits of glass will do more for them than all his potions?

Aye! there's the rub. A good oculist is an expensive person to call on, I know, but if you have any use for your eyes, or, indeed, according to the professor, for your general health, I don't see how you can afford to depend upon an oculist.

Of course, thousands and hundreds of thousands of the glasses wearers—in the United States one-fifth of the population, or about 17,000,000, come under this classification; do get their glasses after a merely mechanical examination by the oculist. But, then, there are thousands and hundreds of thousands of people whose sight fails before old age and who also have nervous and other troubles which may be due to this cause.

The five or ten dollars that you spend for an examination and prescription from a first-class oculist—what is it beside the hundreds of dollars those faithful servants, the eyes, help you earn each year? I know a man—a man of some education, too—who does not believe in either oculist or oculist. He buys his glasses at the department stores. He says he can get just as good ones there. "Think of it!" in this supposedly enlightened age! Nor is he a rarity. Quite the contrary. He must be one of a goodly class, else why would the department stores carry those glasses, or why would every country fair have its fakes who industriously advertise to it you with glasses, while you wait for a quarter?

Let me tell you about a little foreign king whom I met when investigating the miracle of how a girl exists on the small wages that some shops and factories pay. The girl was telling me the budget of her expenses. I believe she was making something like seven dollars a week, and yet one item of that budget was \$27, for visits to the oculist and glasses in the last two years. Think what that meant to a girl who, after her work, had to go to a school, clothes, amusements, incidentally, and to tide her over possible illness.

And yet she had enough to pay that sum rather than go to an oculist, whose failure to fit her eyes properly might mean the jeopardizing of her whole earning power.

Evidently the wisdom of foresighted extravagance is not monopolized by the so-called upper classes.

## The Katherine Kip Editorial

NO PITY FOR THOSE WHO FALL.

It is customary for most of us to condemn the girl or woman who falls. It seems a part of human nature to gloat, as it were, over the misfortunes of others.

With a spirit anything but Christian the most religious of us are likely to shake our heads sadly, look out of the corner of our eye and then hasten away from the sinner lest we, too, may become polluted. And yet that wasn't the Master's way. Wherever there is a fallen woman there is a fallen man. There are some who push away to go further into the depths. The man we permit to enter our homes to become our social equal and to share the best we have. That is, we do until his wrongdoing becomes so flagrant that it reflects upon us. Good women will allow men of this type to occupy their time and attention when they wouldn't for a moment think of permitting the feminine wrongdoer to come into their presence lest they might become polluted by the contact.

It is easy for those on the heights to look down and condemn those in the valley. It is easy to judge others for their misdeeds when we have never really known what temptation is. We forget that many of us, through sheer ignorance, or else because they had no one to guide them, or because their environment was not right. The source of much of the sin of this world is so far removed from the actual act that it is hard to connect the two. Yet careful and persistent effort will locate the one as well as the act proclaims the other.

Not long ago a young woman killed herself or was killed in a lodging house. In tracing her career the reporters found that she had been a ward since fourteen, when she left home to make her way in the world.

In nearly every place she lived she had a different name. When she was found she was scarcely twenty-five, yet she had run the gamut of the night-life until she was thoroughly weary of it.

But the reporters found something more than her wayward career. They found that her mother died when she was a small child. After that she had practically raised herself. She had full roll at a period of her life when she should have been under the guidance of some gentle, motherly woman. At fourteen she was also far beyond her years, and no one seemingly could restrain her. At a time of life when most girls are beginning their real happiness she was dead.

This girl's case is by no means an uncommon one. Other girls who have been short of a mother's protecting love at a tender age have found the world an easy place to go wrong in, but a mighty hard one to keep right in. They have found plenty of people to help them down, but a precious few to keep them on the level or lift them up.

We flatter ourselves that we are a particularly philanthropic and charitable people. We are, in spots. The

QUEEN OF THE MAY.

May 1.—If you're walking call me early, call me early mother dear. For tomorrow's to be the gladiest day of all the glad new year!

And when the young lady said "tomorrow" she meant today, the first of May, and she was to be "Queen of the May." The custom of celebrating the first day of May is an old English conceit that gave the day up to festivities. May poles, games, dancing and so forth. The day was chosen because it was taken for granted that summer was surely come and all nature was waiting to burst forth into song. In this country it is also celebrated but somewhat differently. Here it is after the day chosen as the one on which capital and labor will have decided on the scale of wages for the year. Sometimes they don't decide, and instead of having bonquets and other things they throw Irish confetti in the shape of bricks. But at that it's a fair day. The fire has gone out in the furnace, the baseball season is on full blast, and if the games are close the umpire is in the hospital, and everybody is happy.

## DAILY DIET AND HEALTH HINTS

By DR. T. J. ALLEN  
Food Specialist

EAT SLOWLY IF YOU ARE NERVOUS.

It is possible to masticate food too much, especially protected food, as the example of the carnivorous animals, which bolt their food, should indicate, but there is a benefit from chewing by reflex influence upon the nervous system, aside from the effect of proper reduction of the food mass and mixture with the saliva. Experiments show that the action of mastication has a soothing effect upon the nervous system, overcoming "nervousness" and particularly sleeplessness. This accounts for much of the benefit derived from the practice of thorough mastication. The ruminating animals are distinguished for placidity, those that eat rapidly for "nervousness." Compare, for instance, the cow and the dog, the rabbit and the fox. The nervous person should eat slowly.

## The KITCHEN CABINET

**A** FOOLISH consistency is the harbinger of little minds, ordered by little statesmen and philosophers and divines.

We now come to the root of the matter.

### The Odoriferous Bulb.

Onions, shallots, leek and chive all belong to the same family of flavor vegetables. The objectionable odor which they impart to the breath are their only bad quality. Onions are rich in flesh-forming elements and soothing to the mucous membranes.

As a vegetable or flavor they may be served in countless ways. Those who will tolerate the onion are horrified at the mere mention of garlic. The reason that garlic has fallen into such disrepute is because it has been used in such a wholesale manner. The French people know how to use the flavor, which is so delicate when carefully handled.

**Onions With Cheese.**—Cook onions until tender, put into a buttered baking dish with a cup of white sauce made with a tablespoonful each of butter and flour and a teaspoonful of salt, a cup of milk. Sprinkle with a half cup of grated cheese and cover with a cupful of crumbs. Bake until the buttered crumbs are brown.

**Stuffed Onions.**—Parboil large-sized onions, remove and cool. Take out the centers, chop and mix with cold cooked chicken and buttered crumbs. Season with salt and pepper and re-fill the cavities. Place in a buttered baking dish, pour over a little cream or soupstock and bake until tender.

**Onion Relish.**—Take one large grated onion, one-half a cup of celery juice (grind the celery and press out the juice), one teaspoonful of salt and celery seed, half a teaspoonful of mustard, ten drops of tabasco sauce, the yolks of four eggs beaten and blended with the dry ingredients. Add two tablespoonfuls of olive oil or melted butter, 20 capers and a fourth of a cup of vinegar. Mix all together and use as a relish for game or fish.

**Onion Sandwiches** are fine if the young green ones are chopped and mixed with salt, pepper, a pinch of mustard and a little olive oil and vinegar. Spread the well-blended mixture on buttered white bread and serve. For after church lunch on Sunday night.

*Nellie Maxwell.*

### Mosaic Sandwiches.

Cut three slices each of white and dark graham bread. Spread a slice of white bread with creamed butter and place a slice of graham bread on it. Now spread graham with creamed butter and place on a slice of white. Repeat this process, beginning with graham. Put both piles in a cool place with a light weight on them. When the butter has become hardened, trim each pile even, cut each pile in three half-inch slices. Spread with creamed butter and put together so that a white block will alternate with a graham one. Put under weight in a cool place and when butter is hardened cut in thin slices.

### Curried Fish.

Take half a pound of cooked fish, free it from skin and bone. Put two tablespoonfuls of butter in a saucepan, when hot stir in two tablespoonfuls of flour; stir for a few minutes, add one level tablespoonful curry powder, one teaspoonful of chutney, and add one pint of milk; stir until it boils then add three hard cooked eggs cut in slices, four ounces cooked rice, and the fish; mix well together, add one teaspoonful salt; let it get hot and serve.

**Beef Heart Stuffed.**  
Choose a fine fresh one. Wash well, lay in salt and water an hour, then wipe dry. Stuff with a forcement of crumbs, minced salt pork, pepper, salt and chopped parsley, with a little onion. Pack this in tightly, sew the heart up in coarse net, fitted well to it, and stew one hour and a half in weak broth. A capful can be taken out and made from any soup stock or bits of meat. At the end of this time take it out and undo the cloth and return the heart to the saucepan with enough gravy to half cover. Add to this a tablespoonful of butter, cut up, in as much flour. Pepper and salt to taste. Cover closely and simmer half an hour, turning the heart as it browns. Dish it and add the juice of half a lemon to the gravy. Boil once and pour over the heart.

### Fried Salt Pork.

Cut in rather thin slices and freshen by letting lie an hour or two in cold water or milk and water. If in a hurry pour boiling water on the slices, let stand a few moments, drain off most of the grease from the frying pan, stir in while hot one or two tablespoonfuls of flour, about half a pint of new milk, a little pepper, salt if not salt enough already from the meat; let boil and pour into gravy dish. This makes a nice white gravy if properly prepared.

### Currant and Oatmeal Biscuits.

Half a pound of flour, a quarter of a pound of fine oatmeal, two heaping tablespoonfuls of brown sugar, one egg, milk, two ounces of cleaned currants, two tablespoonfuls of butter. Mix the flour, oatmeal and sugar, warm the butter in the milk, add the currants and then work the whole into a paste; roll out thinly, stamp out into rounds or other shape, place them on a greased baking tin and bake in a moderate oven for twenty minutes.

### Finnan Haddie a la King.

This is a most popular chafing dish delicacy and is made as follows: Roll the fish until it is done, flake it with a silver fork. Put into the chafing dish a large tablespoonful of butter, add six mushrooms, a red and green pepper and a few blades of chives chopped fine. Add these to the melted butter and saute for three minutes, then add the fish. When all is hot add a gill of cream in which the yolk of an egg has been beaten. Blend together quickly and serve on slices of toast.

### Polishing Metal Utensils.

Utensils must be kept polished. For copper use soap applied with a damp cloth, then sprinkle thickly with borax. If you have no regular copper polish, brass can be cleaned by being moistened with kerosene, then rubbed with a paste of powdered chalk and lemon juice, and polished with charcoal. Roll tin utensils occasionally.

## The Best Flour On Earth Is Matchless Flour

There is none made anywhere that is superior to it in any respect. It makes the finest, flakiest, whitest bread, the lightest biscuits, the most brittle and appetizing pie crust; the most superb cake.

It is a quality flour—quality is the sole aim in making it. No pains are spared to insure the highest possible standard of flour goodness.

Try it and be convinced. The following good grocers have it. If your grocer isn't on the list he can get it for you in a short time.

only in strong soda water, and if rinsed rub with lard and let stand before washing.

### Uses of Vinegar.

Vinegar is very useful in souring milk or cream. Put about two tablespoonfuls in a quart of milk and set in a warm place and you will soon have a nice batch of sour milk. Cream may be soured the same way. And if you have put too much soda in cake or biscuits it may be overcome.

### Souffle Potato Roses.

Add the whites of two eggs beaten stiff to three hot riced potatoes, with salt; add two tablespoonfuls of butter. Beat until light and shape like roses.

### Baked Halibut.

Get a cut of halibut weighing five pounds and lay for two hours in salt and water. Wipe dry and scrub the outer skin. Set in the baking pan, pour a cup of boiling water, in which has been mixed a tablespoonful of butter, over it, and make one hour, basting often with butter and water. When a fork will penetrate it easily, it is done. Lay upon a hot dish; add a little boiling water to the gravy, stir in a teaspoonful of anchovy sauce, the juice of half a lemon and a little browned flour; wet up with cold water. Serve when you have boiled it one minute.

### Long Breakfast Rolls.

Three and one-half cups sweet milk, one cup butter and lard mixed in equal portions, one cup potato yam, four eggs, enough to make into dough. Let rise over night. In the morning add one beaten egg; knead thoroughly and let rise again. With the hands make into balls as large as a small hen's egg; then roll between the hands to make long rolls (about three inches); place close together in even rows in the pans. Let rise until light and bake delicately.

### Fromage a la Creme.

To one-half cup of the cheese add one-half cup of cream, stiffly beaten, cutting it in lightly. Pile it roughly in a border on the serving dish, and put raspberries or strawberries, fresh or cooked, in the center.

### Asparagus in Rolls.

Cut off the tips of a well-boiled bunch of asparagus; mix with a thick cream sauce, season well; hollow out the breakfast rolls, cutting off one end, and fill with this hot sauce.

## Calling

By Byron Williams

I can hear the plover piping  
Over all the city din.  
I can see the turtle swimming  
In the blue and splashing in;  
And the meadowlark is calling  
Where the clouds are still and deep  
In the land of way off yonder  
Where the world is half asleep.

And the river bubbles, bubbles  
On its way across the land  
Where the hook of plenty gleams  
In the sturdy gleaner's hand.  
And the harvest fields are golden  
Far as human eye can see,  
With the blue-domed sky above me  
And the cattle on the lea.

And the lord who rules the acres  
From the ratings on the crest,  
Is a stalwart knight of labor,  
Born and nurtured of the west.  
Ah, his creed is pure and simple—  
Just the honest creed of toil,  
With the health and humble blessing  
That are garnered of the soil.

Oh, the river drowns the cable  
And the clash of cogging wheels,  
And the nectar of the woodland  
Through the ferns along the dale.  
To the heart that longs for freedom  
And the feet that fret at stone—  
Calling, calling to the country  
Where the limpid water flows.

Ah, it calls me softly, softly,  
As a mother croons her song,  
Calls me softly, softly, softly,  
Calls me softly, softly, softly,  
Oh, ye great unwieldy city,  
With your cold and molting heart,  
You have won my blood and snow,  
But the country has my heart!

## New Contest for Women Readers

Cold, rainy days are not conducive to working in the garden—that is, to furnish the potes for the table and the fresh, green vegetables for the table during July and August, but it certainly should be a fine time for planning.

The Gazette is anxious to know how you made your garden. What success you had in growing flowers or vegetables and what obstacles you met and overcame. The garden is one of the woman's provinces of the home even though it is a little patch for flowers

PHYSICAL DIRECTOR TO THE KING.

Eugene Sandow, Professor of Scientific Physical Culture to King George. The recent appointment of Eugene Sandow, the man of iron and physical perfection, as professor of scientific physical culture to King George of England, is the first of its kind ever created in Britain. The British sovereign keeps a close watch on all movements that promote national efficiency and whenever he can he uses opportunities to encourage them. As Prince of Wales King George took a keen interest in physical culture and Sandow afforded him many a physical exercise and friendly bout. On his colonial tour he had appliances

Physical Culture to King George. The king's recognition of Sandow's work as a pioneer in improving the national physique, has proven very popular. Some time ago, when Lord Escher appealed for 11,000 recruits to bring the London Territorials up to strength, Sandow provided free physical training for all who desired to enlist, but who had failed to reach the required standard. He is now giving free lessons to the London Church Lads' brigade, an organization of 60,000 boys, conducted under the king's auspices.

The Music Was Fatal. A New York politician once found it necessary to attend an entertainment at an orphan's home, and he was having a bad time of it. The selection by the boys' band was particularly distressing. Turning to a friend the politician said with a shudder: "No wonder they are orphans."—Success Magazine.

A Rural Critic. Artist (sketching): "Art is long and time is fleeting, my friend." Farmer: "Waal, I ain't much of a judge of pictures, but it strikes me your quotation orator be 'tother way round." Generally. When people ask for advice it is generally for the purpose of deciding what not to do.

OFFICERS NAMED BY SONS OF REVOLUTION. At left, Rev. Dr. Randolph H. McKim, chaplain general. At right, Representative John W. Weeks of Massachusetts, second vice president.

Washington.—While the Daughters of the Revolution were in the midst of their most exciting election of recent years, the Sons of the Revolution were adjusting their affairs in a comparatively peaceful atmosphere. The officers are chosen to serve for three years.

Edmund Wetmore of New York was chosen president, James M. Montgomery of New York, vice president, Representative John W. Weeks of Massachusetts second vice-president, the Rev. Dr. Randolph H. McKim of the District of Columbia chaplain general, William Libbey of New Jersey secretary, Richard M. Cartwaller of Pennsylvania treasurer, George E. Hume of Ohio registrar, and Marshall Haywood of North Carolina historian.

Stamped by Lightning. The pattern of a bush under which they had sheltered was found on the bodies of two York (Eng.) anglers who were killed by lightning during a thunderstorm. The tragedy occurred near Linton-on-Ouse, ten miles from York.

The Real Point. Pay as little attention to discouragements as possible. Blow ahead as a steamer does, rain or shine, rough or smooth. To carry your cargo and make your port is the point.—Malto D. Babcock.

Recent the Criticism. Mrs. Henry Cabot Lodge, in commenting upon the statement of Lady Sarah Wilson that American women do not take an interest in politics, said that she had seen only the crust of society while visiting here, and that she could not judge American women from those who had met. She said that American women do take a healthy, normal interest in politics, as do their English sisters.

The Bicycle in Germany. In Germany bicycles are now used almost exclusively by the working classes.

## Who should join the Skavlem Piano Club

You should, if you are going to buy a piano. But to particularize, everyone who is thrifty and makes it a point in his life that the money he spends shall buy his *full money's worth*. He is a person who should join the club.

Young married folks should join the club. A young couple about to be married can not possibly invest a small sum of money each week for their home that will bring more pleasure and entertainment than in securing one of these magnificent pianos through the Skavlem piano club.

There are hundreds of young ladies who are ambitious to learn the piano, but who through force of circumstances will have to buy and pay for their own instruments; they should, by all means, quickly send in an application for membership in the Skavlem piano club.

Music teachers who are just starting their professional careers should join. (The writer of this advertisement knows several music teachers, some of the best in the entire country, who have these very pianos in their studios for several years, and they are good pianos today—notwithstanding they have been in almost constant use.)

Sunday schools, lodges, societies and clubs that have small stated incomes could not possibly make a better, safer or easier musical investment.

The Bride's Gift Should Be Among This Notable Collection of Club Pianos.

"The piano given to me when I was married," says many a white-haired woman, pointing affectionately to the piano which is the honored resident of her home.

Around this piano linger many of the tenderest recollections of her married life. Here she played for her husband the old-fashioned ballads that they both loved. To it she turned for a touch of sweetness among the worries and griefs of later life. Over its keys, yellowed a trifle now, her children's fingers have laboriously hunted the notes in their first "pieces" and exercises.

Would you dower your daughter or wife or sister with such a lifetime solace? If so, give her a piano on her wedding day. Make sure first, however, that it is a lifetime instrument.

Into the making of these Pianos we are selling to the Club have entered the traditions of one great pioneer manufacturer. To the bride of fifty years ago the Hamilton represented the triumph of piano construction. To the bride of today it represents the same.

Careful workmanship, beauty of case and perfection of tone have all been faithfully maintained.

When one thinks of a Bride's Piano, one thinks of a Skavlem Club Piano.

In short, any one who has the faintest idea of buying a piano, it matters not of what grade or of what price—*should join the club*.

If you are thinking of paying around 200 dollars for a piano, it will not take you 5 minutes to see the wisdom of paying the 77 dollars and 50 cents more it takes to get one of these pianos through the Skavlem piano club.

If you are thinking of paying 375 dollars for an instrument—look at all the \$375 pianos you can find—then look at these. Simply satisfy yourself.

If you are thinking of buying a 450 or 500 dollar piano—join the club—and try the club piano for a year.

The chances are 100 to 1 that you will find it everything you want in a piano. If you do you have saved 175 to 225 dollars. If you don't, you haven't lost anything; on the contrary, you have gained. You have had a full year's use of the piano for nothing, as we agreed to exchange it and give you credit for all the payments you have made.

### The Skavlem Piano Club Plan In A Nutshell.

1. The value of the Skavlem Club piano is \$375.
2. The price to Skavlem Club members is \$277.50.
3. The terms are \$5.00 cash when you join, then \$1.25 per week for 218 weeks.
4. The piano will be delivered when you join, or later, as you wish.
5. The weekly payments of \$1.25 begin when the piano is delivered.
6. Every instrument is guaranteed without reserve—for ten years. There are no "ifs" or "ands" in the guarantee; just a straight guarantee, as strong as we know how to make it in writing.
7. If, after 30 days' trial, the piano is not satisfactory, we will give you your money back.
8. If the piano is satisfactory after 30 days' use, the club member has eleven more months in which to satisfy himself as to the character of the piano. If it does not then prove to be everything that he expects, he has the privilege of exchanging it without one penny's loss for any other instrument of equal or greater value that we sell.
9. If a club member dies during the life of his contract we will immediately send a receipt in full to his family for the instrument.
10. A beautiful stool to match the piano and latest style scarf included without extra cost.
11. The piano will be tuned twice without charge.
12. There is positively no interest added.
